This is the third office action for application number 10/604,489, License Plate Bracket for Automotive Vehicle, filed on July 25, 2003.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the primary reasons for the allowance of the claims in this application are the limitations of an end module for an automotive vehicle, having a first exterior body panel, a second exterior body panel abuttingly engaged with the first exterior body panel, a license plate bracket mounted to the end module and including a generally planar body, a plurality of self-locking retention structures extending from the rear side of the planar body, with the retention structures comprising at least a primary retention structure adapted to extend through a passage formed in the first exterior body panel, with the primary retention structure locking itself upon a wall of the passage, and with the self-locking retention structures further comprising a secondary retention structure adapted to extend through a port defined by the abutment of the first and second exterior body panels, with the secondary retention structure locking itself upon at least one of the panels, included in independent claim 8 and in combination with the other elements recited in the claim which is not found in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
